9 Neymar Boko has shown good form of late. Sprinted to a second place last time. Bit of a tricky number now. Good chance with the right trip. **8 I Will Survive** got an offensive start in the last run and was able to take over the lead after a while. Won easily then and put in a good effort. **11 London Boko** galloped directly last time but took a good win from the front before that. **1 Oliverio Boko** won in September from the front but has given up at the end from the lead. Gives away the lead to I Will Survive?

7 Eldida gets the tip in this open cold-blooded race. Has shown good form and Magnus A Djuse wins with everything nowadays. **8 Borkvinn S.K.** was brave as second two starts back and with a similar effort he has to be considered early despite this draw. **6 Gyldengutten Stöen** has had a good year and won a ridden race second last. Wasn't good at all last time though and the form is hard to predict. **3 Vinn Tabac** is even more hard to predict after several mediocre efforts. Has already taken five wins this year though and earned the most money.

3 Casino Vendil has a better draw than his main rivals and that could be decisive. Is fast from the start and our favorite for the lead. Our winner. **8 Picobello** galloped last time but has otherwise done well at the end and also this season. Faces good conditions money-wise. Early choice despite this number. **12 Dry Martini Grue** was a bit unlucky in the last V75 race at Bjerke. Easier opponents now. Has to be considered. **10 Exactement** has one run under his belt and is now driven by Mats E Djuse. Interesting.

12 Gliding Eagle made an early break last time but had taken two good wins before that. Faces the best conditions money-wise and has a good chance in this company. **3 Fiores Arc** has finally got a nice number and will probably take the lead. Interesting from there. **6 Chloe Broline** has earned the most money this year. Rarely wins but is in good form. **11 In Your Time** has not raced since February when he was fifth in a V75 final. Much easier now. Hard to predict though.
