5 Primacor got two kilo up after the latest victory but faces nice weight conditions here in this handicap. Our pick. 1 El Pepino won in this class in the last race with three easy lengths. Three kilo up but this apprentice claims the same weight off. Challenger. 2 Tough Love comes from a sensational win on the Bro Park turf over this distance. Has also won on the Jägersro dirt and should be considered early. 6 Prima Kalejs showed good form in the last race on Klampenborg and was second to Noelle just closely defeated. Should not be discounted.

1 Oliver's Dream finished strongly in the last race and would probably have won with a better journey on the home stretch. 9 Celebrate Me showed good form in the last race on the Gothenburg turf. Is as good on the Jägersro dirt and should be the main challenger. 3 Dressedforsuccess was clearly beaten by Oliver's Dream in the last race but faces much better weight conditions towards the latter one today. 6 Sixten Blixten comes from victory over the short 1200 dt but has scored the other two wins over this 1730 dt. Possible.

5 Four Dragons was 2.5 lengths behind winning Spoonful Of Sugar but faces four kilo better weight towards the latter one today. Our pick. 7 Spoonful Of Sugar comes from a comfortable win over these circumstances and is ridden again by P-A Gråberg. Early contender. 4 Tussilago Farfara has not raced since May and the form is a question mark. Faces nice conditions though and is a possible challenger. 2 Escoumins does not start very often but the three-year-old is well bred and still on the way up. Typical outsider.

1 Freemanip fought well in the front ahead of gifted Ramzes in the last race. Perfect number today and the gelding should have top chance here. 2 Neville Chamberlain faces better weight now after a couple of mediocre efforts. Should be considered early over these conditions. 6 Filia Kalejs scored the latest win on number 76 and is possible again together with this apprentice. Outsider. 4 Bossner has not convinced for a while. Faces nice weight here and is possible if improved.
