RACE 1

**GBI RACING**Going: **Standard**

The all-weather track at Southwell goes left-handed in a flat mile-and-a-quarter oval which has a run from the home turn of three furlongs and a spur to provide a straight five furlongs, those drawn low have often been seen to good effect on the sprint track. The fibresand surface used until August 2021, which produced a lot more kickback than the ones used at the other all-weather courses and lent itself far more to the course specialist, has now been replaced with tapeta.

**TIMEFORM VIEW:**

YES I'M MALI capitalised on the drop in grade when holding off the odds-on favourite at Newcastle last month and a 2 lb rise in the weights might not be enough to prevent him from following up. The biggest threat could come from Rock N Roll Rocket, who got back on track when making a winning all-weather debut, with Roysdelight also in the mix.

RACE 7

**GBI RACING**Going: **Standard**

The all-weather track at Southwell goes left-handed in a flat mile-and-a-quarter oval which has a run from the home turn of three furlongs and a spur to provide a straight five furlongs, those drawn low have often been seen to good effect on the sprint track. The fibresand surface used until August 2021, which produced a lot more kickback than the ones used at the other all-weather courses and lent itself far more to the course specialist, has now been replaced with tapeta.
